Coordination of Economic Commodity Data in NIE 11-4-54

We plan to include graphics for selected items of Soviet industrial and agricultural production in the appendices to NIE 11-4-54, "Soviet Capabilities and Probable Courses of Action through Mid-1959". The O/RR contribution to NIE 11-4-54 contains production estimates for the selected commodities. Since time is at a premium in the preparation of this estimate, we request that the EIC machinery be used to expedite the coordination of this data.
